McGraw-Hill Education LSAT 2017 (McGraw-Hill's LSAT)

Synopsis

This comprehensive study guide offers the specific strategies and practice students need in order to achieve the scores they want on the LSAT. McGraw-Hill Education: LSAT provides up-to-date information on the format of the latest LSAT, including a review of each section, the types of questions asked, and common tricks and traps found on the test. Written by an attorney and experienced LSAT instructor, the book introduces a specific approach for each section of the exam and emphasizes the reasoning and analytical skills necessary to succeed on the test. More than 100,000 students sit for the LSAT every year. With this book they will find:

- 5 full-length sample LSAT tests with answer explanations, including on the mobile app
- A diagnostic test to help test-takers assess their strengths and weaknesses
- Casebook-style instruction similar to what students will encounter in law school classes
- Specific guidance for approaching the LSAT Logic Games--widely considered to be the most challenging part of the LSAT
- Detailed description of all question types found throughout the Logical Reasoning and Reading Comprehension sections of the test
- A thorough explanation of the format of the latest LSAT
- The Premium Practice Test App, which allows students to take full practice tests on their tablets and/or smartphones (This new edition contains 20 instructional videos that show students how to solve key problems)
- Access to the McGraw-Hill Test Planner App--a tool that helps students organize their time and set their own study schedules
- Answer keys that provide comprehensive explanations and identify and explain common errors

About the Authors: Russ Falconer, JD (Dallas, TX), is an attorney in private practice in Dallas, Texas, and is an experienced LSAT instructor who has worked as both a classroom teacher and a private tutor. Drew Johnson (Austin, TX) is co-founder of Anaxos Inc., an Austin-based company specializing in the development of high-stakes test items and test-preparation material for all major standardized tests.

Customer Reviews

So far I feel as if I got my money's worth. I was originally going to buy another publisher's trilogy which I will still do, however for the price I thought I would just get this now and see what I thought. It is easy to follow and to the point, it goes over the information you must know and it provides practice tests and explanations! The book gives you tips and tricks for each section. For the money it is worth it. There are other books that might be more thorough and detailed but for the cost it is worth adding to the book shelf.

This review is for the Kindle version. This is essentially a digital version of the print book. In this case, that isn't good. You can tell from some awkward formatting they didn't make an effort to optimize the content for Kindle. Also, this is the type of print book you work along with, writing stuff down and/or practicing with questions. Unless you sit down with your Kindle and some scrap paper, you'll find the process not too efficient. In sum, buy the print book or combine it with a print book.
