Lord John And The Private Matter

Synopsis

Includes a sneak preview of the next Outlander novel, *An Echo in the Bone*. Adored bestselling author Diana Gabaldon brings us the first book in a new trilogy featuring many of the characters from her wildly popular Outlander series. In her New York Times bestselling Outlander novels, Diana Gabaldon introduced millions of readers to a dazzling world of history and adventure — a world of vibrant settings and utterly unforgettable characters. Now one of these characters, Major Lord John Grey, opens the door to his own part of this world — eighteenth-century London, a seething anthill of nobility and rabble peopled by soldiers and spies, whores and dukes. Great Britain is battling France for supremacy on three continents — and life is good for a soldier. The year is 1757. On a clear morning in mid-June, Lord John Grey emerges from London's Beefsteak Club, his mind in turmoil. A nobleman and a high-ranking officer in His Majesty's Army, Grey has just witnessed something shocking. But his efforts to avoid a scandal that might destroy his family are interrupted by something still more urgent: the Crown appoints him to investigate the brutal murder of a comrade in arms, who may have been a traitor. Obligated to pursue two inquiries at once, Major Grey finds himself ensnared in a web of treachery and betrayal that touches every stratum of English society — and threatens all he holds dear. From the bawdy houses of London's night-world to the stately drawing rooms of the nobility, and from the blood of a murdered corpse to the thundering seas ruled by the majestic fleet of the East India Company, Lord John pursues the elusive trails of a vanishing footman and a woman in green velvet, who may hold the key to everything — or nothing. The early days of the Seven Years War come brilliantly to life in this historical mystery by an author whose unique and compelling storytelling has engrossed millions of readers worldwide.

Best Sellers Rank: #67 in Books > Romance > Time Travel #76 in Books > Audible

Audiobooks > Fiction & Literature > Historical Fiction #94 in Books > Literature & Fiction > Genre Fiction > Historical > Mysteries

Customer Reviews

Like many other "Outlander" fans, I've been reluctant to even attempt to read this second Gabaldon series which centers on a secondary gay character first introduced in "Dragonfly in Amber." I was discouraged not only by the average Goodreads rating of 3.35, but by the sheer memory of THE homosexual encounter in "Outlander." I simply didn't feel like going through the same pain and suffering again. But then the 7th book came out ("An Echo in the Bone") and everybody was saying that you had to have read Lord John books to really get into the story. Of course, in this case, I simply had to at least try to read these books to be sufficiently prepared for future series installments. Well, I am pleased to say that I enjoyed "Lord John and the Private Matter" very much. I understand however where the low ratings came from. This book was nothing like Outlander books. They are different in genre, in size, even in vocabulary. This Lord John book was a historical mystery with a lot of old-fashioned sleuthing, unlike smutty romance/adventure type Outlander books are. What remains the same in both series however is the high quality of writing, fantastic characterization and smartly presented historical details. There was no passionate love story (not even a gay one) in "Lord John and the Private Matter," but it was filled with political intrigues and discussions of military affairs, and I enjoyed every bit of it. The subject of homosexuality was presented throughout the story: not only was it always in the back of Lord John's mind, but we also had to follow our protagonist sleuthing through brothels, male secret rendezvous houses and chasing transvestites.
