Synopsis

It is January 1944. The whole world awaits the Allied invasion of Europe. But in England, Winston Churchill has learned that Nazi scientists have developed Sarin—a horrifying new weapon that could turn the tide for Hitler. Only a desperate gamble can avert disaster. Two men—a pacifist American doctor and a fanatical Jewish assassin—must embark on a murderous mission into the heart of Germany. Their target: a human hell where Jews fuel Hitler's last hope for victory. Their only allies: a young Jewish widow fighting to save her children and a German nurse who is the picture of Aryan perfection. Their orders: destroy the threat no matter how many lives are lost, including their own...

Customer Reviews

This book was a pleasant surprise. The underwhelming titles "The Master Sniper" and "War of the Rats" had not ingrained me with high expectations about WW2 fiction. "Black Cross" manages to wrap suspense, characterization, and a fast-paced plot into one neat little package that will have the reader wondering where the hours went. The writing is excellent. Descriptions are concise and easily visualized, action is both exciting and believable. One star. The plot is another gem. Learning the Germans have developed nerve agents, the allies are confounded as to how to prevent them from being employed. A raid on the concentration camp where the gas is being developed is the answer. Without giving away too much, the covert action is engrossing and thrilling, and there is a true sense of urgency (and a few, but not too many, twists). One star. There are two protagonists, an American pacifist physician and a Jewish Zionist fighter (Stern gang? I don't recall.) Naturally, the personality

conflict is substantial. Both are well-developed and sympathetic, and have good, well-explained reasons for their personal beliefs and biases (I, for one, can't stand it when a character acts uncharacteristically just to advance the plot. There is none of that here.) It is truly a character-driven story. One star. The supporting cast is similarly well-done. Churchill acts in true-to-life fashion. A nurse at the gas-research camp struggles internally with her service of an evil regime. A Jewish mother in the camp does whatever it takes to save her children. The camp's security chief, honorable despite his service in the Waffen SS, loathes his current assignment and the men he commands. An NCO of the camp guards displays the sadism typical of that position.
