Age Range: 3 and up

Grade Level: Preschool and up

Customer Reviews

I purchased a copy of this book at Walmart for our 4 year old to use in our homeschool. The title of the book says it all! It has everything for early learning preschool! This is a complete pre K program in one book. The book is made up of five chapters: Basic Concepts, Mathematics Readiness, Numbers 0-10, Reading Readiness, Letters and Sounds. The book contains coloring as well as cut and paste activities that are fun! It is 320 pages including achievement stickers to use as rewards for a job well done. We utilize this book as the "worktext" for our literature based pre K program. Our child preferred this hands down to the "Developing the Early Learner Books" which came with our pre K program.

I purchased this title at Walmart for under \$4 to keep my daughter busy while my older children are doing their schoolwork. She likes it quite a bit. If I was just rating it based on value and her opinion it would be 4.5... But I would like some color- not just black and white. Overall it is a great value. :)

This book is a 319 page fun-filled learning experience that helps preschoolers with letters, numbers, and problem solving. They allow young children to practice skills like using a pencil or crayon, scissors and glue too. The variety of activities stimulate interest and the activities are fun enough to keep young children engaged and entertained.

This is a great book for little ones just starting out. I purchased it for a four year old and he loves it. He did 13 pages in one sitting before he got distracted. The book is easy, with simple instructions.

I really like the workbook it covers a lot of important information. I was happy with my purchase and service received. Would recommend to others.

I think the book itself is terrific! It covers all the necessary topics for preschoolers, and although it isn't colorful, the pictures are quite winsome. I made the mistake of buying from one of the vendors who described the book as having some wear on the cover and possibly some light marking inside. The workbook I received, besides having 31 of the pages already done, had 26 missing pages. I don't have a big problem erasing a few pencil marks, but some of those pages were done in crayon. Over half of the stickers were also gone. I wish that I had paid the extra few dollars and bought this workbook new. It is a great book.

This has everything your preschoolers needs to know! We love it! My daughter begs to do school! We homeschool and find it very helpful.

This book is great. It comes with stickers which really motivates my daughter. She will be ready for school in the fall.
